Updated 21.04.2022

January 1960 – March 2022

(Whole Numbers 1 – 283)

Please note, the Reference is made up of 3 parts;

the first - the page number;

second - WN refers to the issue or Whole Number;

the third - the month and year of publication.

The Supplements, SWN,

were only issued with Newsletters WN36 to WN65 inclusive and WN137.

WN138 was the Society's Silver Jubilee Edition.

WN144 celebrated the 50th anniversary of the Coronation of George VI.

Both of these contained reprints of content from earlier issues of GEOSIX

e.g. see Australia 150th Anniversary NSW

Some illustrations were placed on unnumbered pages which are referred to as P(X)A

where X is the number of the preceding page.

Items marked (m) are only notes from meetings as prepared by Editor

rather than the presenter.
